Senator Denbrow

Thanks for your service to Oregon. I appreciate your time and expertise.

I am emailing to encourage your support of HB 2027 to protect Oregon's waterways. The Deschutes River segment is a perfect and relatively untrammelled section and is worthy of the protections made in 1987. Residents of Bend love our Oregon rivers, especially our Deschutes, and support HB 2027 which add further protection to its already protected status.

Thank you for your consideration,  
Nancy Bonetto  
Bend, Oregon
