Subject: Tenants need Protection

Landlord's should have the right to raise their rental fees, but raising rents 100, 200, 300, 400 & more is abusive. Their taking advantage of tenants and causing extreme hardship. I'm experiencing this first hand, landlord won't renew lease, everyone around me their rent has gone up I'm just waiting for my letter with the bad news. It's caused me so much stress I had to go on an anti-depressant. Harmony
