---

Please vote no on HB 2027 - we need this footbridge to allow people to ride bikes and hike on both sides of the river. We are working very hard to cut down on car trips in the Central Oregon area, having access like this helps.

Our wonderful Rep. Whisnant didn't realize it was a private homeowner championing this bill for his own benefit. NIMB type thinking, short sighted.

Thanks for taking the time to listen, for all you and your staffs do for the people of Oregon!

Regards, Sally
