Subject: Vote yes on HB 2004

Hello,

I live in North Portland and own a home. I am a landlord.

My partner and numerous friends have been evicted without cause because the landlord wanted to rent their unit for more money. No cause evictions cause financial chaos and stress.

I work with food pantries, shelters, and meal site in Washington County. These organizations are seeing new people access their services because their rents take up over 75% of their income and there is no where else to move when the landlord increases their rent again.

Please vote yes in HB2004. We need to end no cause evictions and let local jurisdictions stabilize rents.
