**Subject:** Social gaming/poker rooms

Please continue to allow social gaming in Oregon. My husband and I both enjoy being together in a classy poker venue like The Final Table in Portland. We are retired teachers and love the "date nights" and socializing we are able to do there.

I have never in the 3 years I have played there seen problematic instances of drunk behaviors or drugs. This is a very positive outlet and competitive substitute my husband has after coaching high school and college sports for 36 years.
