

To whom it may concern,

I am a home owner and landlord in Deschutes county, HB 2004-A is a slap in the face to anyone who owns and rents real estate.

Why should I continue to rent my properties out if renters will receive more control of my investment than me? Last time I checked, I own this property.

This whole concept smells like socialism and communism doesn't it? Are you trying to kill off the american dream of entrepreneurship? This bill surely will.

At a time where real estate is at a high, I might as well just sell my property and thus create one less rental available to those looking. This bill will seriously anger real estate owners and create animosity towards renters in general.

Please junk HB 2004-A its a bad deal.

Thanks,

Chris
