My name is Fran Loesch and I am a landlord. I have been working from the time I was 10 years old. Strawberries, bush beans, pole beans, and what ever i was able to do to get a job. I am now 73 years old and still working. I have earned every dime. No one gave it to me. My 75 year old husband is also still working. I see no reason what so ever that I should have to pay to move a tenant I no longer want, or has cause me much stress and dis-respect. A no cause is the best way for me to go and for the tenant. I would love to send you pictures of all the damage that they left me after we gave them a no cause notice to move. Many reason for giving them this notice. My husband and I do no have a government job that is going to pay us a big pension. If you feel that you want to give your income away to move these people I think that is great, but I don't. They can all get 2nd jobs or call their own parents to help them out. I have children and grandchildren and my funds are helping them in their time of need.

This is not going to fix the problem. Price of milk, bread, cheese have all gone up and so has housing. It is a fact of life. WE can not take care of everyone. AT some time in their life they have to grow up and stop crying to everyone to take care of them. It is not my job to pay to have them move. I put the down payment, I make the monthly payments, I pay the taxes and I clean up after they leave. This is my income you are trying to take away. I urge you to oppose this bill HB-2004-A. You must be fair and balance.

Thank you
