Subject: HB 2004A

Dear Senate Committee on Human Services:

HB 2004A is a terrible way for Oregon to go, and hardly human services. Please do all you can to defeat this and NOT let it even come to a vote.

We do not have a rental housing crisis. We have simple supply vs. demand working. Get more state and local government out of the way of the people that want to provide more housing and the so called “crisis” will take care of itself. Get out of the way, for once.

Rent Control is a particularly hideous government intrusion into the private sector. If this is made law, what will government want to control next, our health insurance? Our retirement plans? What kind of light bulb we can use?

There isn't much government has done lately that has been efficient or helpful. Please stop state and municipal government overreach in the rental housing markets.

Thank you very much,

David Banks
