

I am asking that HB 2927 concerning National Popular Vote Interstate Compact receive a timely vote so that it can move to the full House for a vote and then on to the Senate.

I fully support HB 2927 National Popular Vote Interstate Compact. The Electoral College voting system is out of date and unfair. There has been 5 times that a President was elected by electoral vote without garnering the popular vote. 1824 by John Quincy Adams, 1876 by Rutherford B. Hayes, 1888 by Benjamin Harrison, 2000 by George W. Bush and 2016 by Donald Trump.

With the passage of this bill here in Oregon, our country will be seven electoral votes closer to having the National Popular Vote Interstate Compact reach the 270 needed electoral votes to give the candidate with the most popular votes a win. This would achieve the idea of a President being elected by popular vote instead of the outdated Electoral College.

Thank You,
