

Dear Representatives,

Please move quickly to approve the National Popular Vote Interstate Compact bill, HB 2927. It is time for our nation to elect the President in the same manner as all other elected officials, "one person, one vote". I know the House has passed it before and it has gotten hung up in the Senate. Please move it there expeditiously, and put whatever pressure you can on Senate President Courtney to allow it to come to a vote in the Senate.

Thank you for your work.

Eric Halperin, O.D.
Tillamook, OR
