

I have been involved with Investment Real Estate in Oregon for more than 25 years & will tell you the provisions of HB 2004-A will have exactly the opposite impact it is despot provide. Over the past several months my firm has seen a dramatic downturn in investor's interest in Portland and in fact the State of Oregon due to this potentially devastating bill. In fact, I can tell you without hesitation from my direct experience informed owners are already moving their investments out of our region... As you are aware, we are in need of more housing and this bill will ensure those needs will not be met.

Cordially,
