May 15th 2017

Dear House Rules Committee and Rep. Mark Johnson

I am writing as president of the local Branch of the NAACP located in Eugene, Oregon. As a member of the African American community and father of five I understand the importance of the vote in the United States and the need to build trust around its validity. We at the Eugene/Springfield NAACP believe that HB 2927 is a concrete and balanced way to address concerns with the ongoing functionality of the Electoral College. With that in mind we ask for you to support HB 2927. By joining the 10 other States currently in the National Popular Vote Interest Compact; Oregon will continue its role as a progressive voice of the common folk! One person one vote!

Thank you!

Eric Richardson

President Eugene/Springfield NAACP
