To: General Government Subcommittee
From: Sean McSpaden, Legislative Fiscal Office
Date: May 16, 2017
Subject: LFO Work Session Recommendations
SB 87 – Relating to quality management services for information
technology initiatives

Senate Bill 87 allows the State Chief Information Officer (CIO) to relieve state contracting agencies and public corporations from the obligation to obtain quality management services when implementing information technology (IT) initiatives with estimated costs that exceed \$5 million, and permits the State CIO to require such services for IT initiatives under \$5 million.

The measure further requires the State CIO to submit a report to Legislative Fiscal Officer by December 31 of each year that identifies IT initiatives for which the value exceeds \$5 million and the State CIO determines that quality management services are not necessary.

Materials related to Senate Bill 87 are posted on OLIS.
