

I'm a landlord in Multnomah County, and I urge you to oppose HB 2004-A. The city of Portland has no idea what they are going to get if this passes. The liberals and the Federal Government will not help house people from a sanctuary state.

I am willing to sell my units as condos and move to a better climate with less control issues and violent protests according to national news. Portland looks like a bunch of idiots.

Best of luck,

David George
