

Please support this bill. Make us proud! Let everyone know that every vote should count. The electoral college is a poster child for Jefferson's fear that a constitution may linger beyond its natural life. Don't let a minority decide who our President should be. Don't continue to allow Presidents elected by this arcane method spend all their time and money in just a few battleground states. Make us ALL an equal voice to this immensely important decision.

Thank you for your time and consideration.

Sincerely,
Carol L Woolman
