

To the Committee: My family & I call upon the committee to pass and strengthen SB 1008-3. Thanks for the progress made.....but more is needed.

I have a family of asthmatic people - children and now grandchildren. This is a terrible legacy to pass on.....the vivid memories of my daughter's asthma attacks will never leave me.....and have left her susceptible for life - and now I see it in my grandchildren. It is heart-breaking and limits their world.

AND YOU CAN DO SOMETHING ABOUT IT! TODAY PLEASE MAKE THE CHOICES FOR CHILDREN .

MANY THANKS, Jere Grimm
