

Dear Sirs/Madams

I am a Family Nurse Practitioner in Portland Oregon and I have seen first hand the damage that Oregon's dirty air can cause in the lungs of young Oregonians. It is appalling that there is a solution to decreasing our risk of cancer, reducing health care costs, and improving our environment, but that it has been largely ignored because of corporate lobbyists. We must reduce diesel pollution in Oregon's air. While we lag pathetically behind our neighbors in California and Washington, it is not too late. Please support SB 1008.

Thank you

May your choices reflect your hopes, not your fears." - Nelson Mandela
