

I support SB 1008 and it's efforts to clean up dirty diesel in Oregon. SB1008 is essential because:

- *Diesel pollution in Oregon is increasing risk of cancer; damaging the heart, lungs; brain function; causing premature death; costing billions in health care costs and lost productivity.*
- *Diesel pollution is the sole source of one of Oregon's worst toxic air pollutants, and can contain cadmium, arsenic, benzene, formaldehyde and chromium compounds.*
- *Cleaner diesel engines can run with 95% less pollution; deliver as much as \$17 in health benefits for every clean-up dollar invested; and can deliver short-term benefit*

Best,
