

I'm sorry I can't be there in person to testify today, but I want my voice to be heard. Please:

- Bring back the expiration date for dirty diesel engines in Oregon
- Stop the dumping of engines outlawed in California
- Lift the pre-emption on local idling ordinances
- Use the VW settlement dollars to clean up School buses and protect EJ communities

I see everyday the impact of Portland's dirty air on me and my neighbors close to I-405 AND to idling vehicles.

I will write more on this shortly, but I want to get this in before the hearing starts. I think we would have more in health impacts than we would on industry if you brought back these aspects of the bill.

Thanks,
Mary
