

Senate Rules Committee,

I support SB 1008 because diesel is polluting Oregon, increasing the risk of cancer and making it unhealthy to live here. *Diesel pollution is the sole source of one of Oregon's worst toxic air pollutants, and can contain cadmium, arsenic, benzene, formaldehyde and chromium compounds.*

*Cleaner diesel engines can run with 95% less pollution; deliver as much as \$17 in health benefits for every clean-up dollar invested; and can deliver short-term benefits to our climate by reducing black carbon pollution.*

*Thank you for voting for this bill.*

Sincerely,  
Alison Hardin
