

*Testimony submitted via email.*

Dear Mr. Greenlick,

It is the position of the Board of the Oregon Speech and Hearing Association to oppose the inclusion of Speech Language Pathologists (as outlined in the -5 amendments) to Senate Bill 48. This has the potential to impose unnecessary requirements to Speech Language Pathologists, as well as incur unknown costs to the individual professional and/or licensure fees via the Board of Examiners for Speech Language Pathology and Audiology.

Thank you for the consideration of this opposition,

Melissa Fryer MA, CCC-SLP

Clinical Assistant Professor in Speech Language Pathology

Pacific University

State Advocate for Medicare Policy, Oregon Speech and Hearing Assoc.
