

Protect Your Vote USA is concerned that the Oregon State Legislature is considering National Popular Vote Compact legislation. Contrary to what proponents of this dangerous legislation will try to tell you, the United STATES of America is not a democracy. We are a beautifully constructed Constitutional Representative Republic. Alexander Hamilton in Federalist 68 describes the principles of Federalism and how the Electoral College is a vital component in maintaining the integrity of our Republic. The NPVC is clearly in direct opposition to what our Founding Fathers intended and in subverting the Constitution literally steals the vote of Oregon residents and hands it over to the winner of the National Popular vote. This insanity will ensure that the people of Oregon will never again matter in a Presidential election as the electoral votes of Oregon can be gained simply by pandering to the 4 largest states who have 33% of the Nations population. I ask any of the legislators in Oregon to honestly say if they would EVER campaign in Oregon if they could get there votes by winning Los Angeles. WE THE PEOPLE know the true answer to this question. Lastly I would remind the Legislators considering this destructive bill to consider that while the proponents of this bill are trying to convince you this is a State issue that is not true. As our group works to Protect Your Vote in all 50 States it concerns us to no end that Oregon would consider making this decision for the residents of the 38 other States who do not agree with this Legislation.

We ask that you tell the proponents of the NPV to amend the Constitution if they want to make this change so all States can deliberate on the issue. We ask you to Protect the VOTE of all Oregonians and all Americans. We ask you to please vote NO on HB2927
