Association of Electrical
Workers (OSAEW)
represents over 9,000
members of the
International Brotherhood
of Electrical Workers who
live and work throughout
the state of Oregon

Oregon State Association of Electrical Workers Supports HB 3456

The Oregon State Association of Electrical Workers (OSAEW) urges your support of HB 3456. OSAEW is made up of the seven Oregon IBEW locals and employs over 9,000 members in Oregon who work in the electric utility industry and perform electrical installations, maintenance and service.

HB 3456 is a thoughtful solution that allows Umatilla Electric Cooperative (UEC) to meet its renewable portfolio standard obligations and move forward on their solar array project without undermining Oregon's land use process. The solar array project will provide quality jobs to our highly trained electrical workforce. More specifically, it provides job certainty for UEC utility workers who are represented by IBEW Local 125.

We urge you to support this bill to move this project forward to allow UEC to meet its obligations and provide significant economic benefit to rural Oregon at the same time.
