

May 18, 2017

I am writing in support of the National Popular Vote Campaign and the swift passage of HB 2927 in the Oregon House. In elementary school, I was taught that our democracy was based on the principal of one person, one vote. Unfortunately, this has not and will not be true, as long as presidential election results are re-engineered in the Electoral College. Please vote for HB 2927, and send the bill on for passage in the Oregon Senate.

Thank you.
