Subject: VOTE NO ON SB 339A

The scam of SB 339A

Biomass only exits as a **legitimate** by product of logging or forest thinning in one of two ways. 1) it is subsidized by the tax payer with no financial reimbursement to the taxpayer or; 2) the price of all other power has to be raised to make it competitive. It's that simple. Biomass subsidy or mandate is not our problem, lack of commercial timber production is!! Biomass as part of a financially viable timber harvest plan would handle the forest fuel loading problem in a fiscally responsible fashion.

Coal burns cleaner, LPN burns cleaner, Hydropower is cleaner.

Please stop trying to cure an environmental problem that doesn't exist (global warming - Co2 pollution) with our pocketbooks!!

VOTE NO ON SB 339A

Tim Smith
Harney County
