

We as landlords are strongly against HB 2004-A. its hard enough being a landlord as it is.....we try our best to be fair with tenants - we favor them as it is as they support us (almost - after paying all the existing costs to maintain apartment buildings).....why should we pay to relocate a bad tenant ?? That is nonsense.

Please please please hear landlords' plea for justice. Reality is you are trying to make our job as landlords even harder than it is already. We cannot exist with the new laws you are trying to pass.
