We need this bill to pass my rent just doubled and I can't really afford to move and its getting extremely difficult in paying my other bills we have drastically lowered are grocery budget which makes it hard on us. My wife has suffered three strokes and heart attack and is on warfarin and she needs to keep her dietary intake,which means I eat one meal a day. My landlord is suggesting another rent increase. renters need your help and we need it now. If this rise continues, the working class that pay rent may have to move out of Oregon. And that will hurt employers and the bottom line for the state with a loss of revenue. So please very please pass this bill and help the work renters.
