Why not outlaw new people from moving to Oregon to prevent further displacement of people living here now. I just listened to OPB interviewing Power, who indicated not only is housing a right, staying in the same neighborhood for stability of the children is a right too.. Does the electorate of Oregon agree that all newcomers should will be shut out in favor of the existing population's newly articulated "right to stability" to stay in their same neighborhood? Sounds like she agrees with Trump's anti-immigration policies - ban immigrants who are displacing people. But bet she condemns Trump's stance on a national basis while embracing the same philosophy when it comes to her local constituents!
