**Subject:** Safe Routes to School & Transportation Package

Klamath/Lake Community Action Services would like to send support for Safe Routes to School and the Transportation Package HB 2017-3. Programs like these are paramount to children in rural communities where other forms of transportation is not available. Klamath Falls in particular is in dire need of safe sidewalks. Many of our neighborhoods do not have sidewalks. In promoting a healthier life style for children, teachers and school administrators, riding a bicycle to and from school adds many benefits to health and is good for everyone.

Thanks for your consideration in supporting and passing both of these initiatives.

Respectfully submitted,

***Donna J Bowman***
