---

Please give focus and time on Senate Bill 860 regarding enforcing the Parity Law. I see over and over again the amount of people who can't use their mental health coverage due to restrictions on mental health such as over management, limited coverage, or denial of services because of licensure of the professional (licensed but a license the insurance decided wasn't what they were cover). Without oversight, insurance companies don't do the right thing.

Thank you for your attention and work to pass this bill.
