---

Hi there!

I'm a therapist in private practice and support SB 860. It has been an unfair practice for therapists for years to not be equally compensated for services we provide. We are often on the front lines of treating folks with severe depression, anxiety, trauma and suicidality. Many insurance companies refuse to reimburse for CPT code 90837. Often working with a client who is coping with trauma, 45 mins is not enough time to provide adequate treatment. Insurance companies have been in unfair practices for years and have not reimbursed therapists in an equivalent manner as physicians. As therapists we try to keep people alive and living a meaningful life. We need to be supported to be able to do our job.

Thank you!

Lesley Alter, LCSW
