RE: Support for HB 2745B

Chair Hass, Vice-Chair Boquist, and Members of the Committee:

I am writing today to urge you to support the bill currently before the legislature, HB 2745B, which will give voters in Central Oregon a choice on whether their areas should fund a public transit system.

Transportation produces 37% of Oregon's climate changing pollution, the largest source. Public transportation removes the equivalent of over 202,000 single-occupant vehicles from Portland area roads each day. As Central Oregon grows and traffic increases in the region, the Oregon League of Conservation Voters understands that we need to invest in transit services to meet increasing demand, connect communities and reduce greenhouse gas emissions.

At the August 18, 2016 Joint Committee on Transportation hearing in Bend you heard first hand stories from transit riders about the need for improved transit in our region. HB 2745B offers a number of benefits to our Central Oregon Communities. It gives them local control -- each city can choose the appropriate level of service, funding amount, and tool for funding transit in their community. It maximizes efficiency, by retaining regional management for the transit system, minimizing costs and optimizing streamlined and convenient service. It drives economic development, helping local companies attract workers by giving employees a public transportation option that saves time and money. Some communities may choose to ask voters to support funding initiatives, and other communities may not be ready any time soon. Giving Central Oregon communities the option to seek transit funding from voters is important to our region.

OLCV asks the Senate Finance and Revenue Committee to support the passage of HB 2745B this session. Thank you for giving local control of future transit initiatives into the hands of Central Oregon voters.

Respectfully,
