I am writing on behalf of SB 860 because as a mental health provider I see firsthand how mental health parity does not exist. I ask that you pass this bill so that existing state and federal parity laws will be enforced. I get telephone calls almost every day from insurance policy holders who are having difficulty getting access to a mental health provider because of the lack of parity. Please cast your votes so that Oregon citizens have real access to the services that they pay for and have every right to.
