

Dear Legislators,

I am in full support of the HB 3230 components being a part of the Transportation bill. I am a mother of 2, and believe all kids should have a safe place to walk or bike to school like I was able to when I was a child growing up in California. Kids need to be able to get exercise and learn how to become independent, and having safe places to be able to do that is imperative. Thank you for listening.

Sincerely,

Kristine White
