

House Rules Committee,

I would like to submit testimony concerning HB 3464:

I've never understood why there are those who grant protections and services that the rest of us don't enjoy or qualify for yet we the taxpayer are stuck paying for them. Being in the state illegally is against the law.

Concerning HB 3464, please kill this bill in committee. And if it does make it out of committee and it is such a good idea, then take off the Emergency Clause and allow Oregonians to hold a Constitutional referendum on this bill.

Thanks,
