Oregon Legislature
House Committee on Rules
Senator Peter Courtney
Representative Tina Koltek

I strongly oppose HB 3464!

It is disheartening to me that Gov. Brown and Attorney General Rosenblum would request this legislation that defies the law and gives illegal aliens more rights in Oregon.

By declaring this bill an emergency it circumvents the 90 day delay that allows Oregonians to challenge the legislation. Oregon has a serious problem with overuse of "emergency" designations on bills which appears to thwart the ability of citizens of Oregon to have a say on the laws/rules of Oregon.

Having one party rule (Governor, House and Senate) does a great dis-service to this wonderful state. To the people of Oregon, pay attention when voting, one party rule is bias & unfair and many people are not represented.

It appears the legislative "Term Limits" initiative sponsored by Dr. Bud Pierce is on its way to the 2018 ballot. I support this idea in order to clear out the one-way thinking in the Oregon Legislature.

Final comment, the timing of entering this bill into the 2017 session and moving it forward in a few days is quite remarkable. This is an anomaly.

HB 3364 is simply wrong at every turn. VOTE NO on behalf all legal residents of Oregon.

K. Rogers
