

House Rules Committee

Re HB 3464

I am opposed to this bill.

The enforcement of immigration laws are the responsibility of all enforcement organizations. Our state needs to get with it and implement actions to reduce illegals. Illegals reduce the employment opportunities of legal residents and are a financial burden on our schools and medical system for starters.

Section 3 of the bill, the emergency clause is strange as it targets our law enforcement folks trying to insure public peace, health and safety.
