

I am afraid this is late, but I still want to express my disappointment at the improper way HB 3464 was fast tracked. It is not fair to pass legislation without properly educating the voting populace.

I am not in favor of sanctuary zones and certainly not those that are snuck into place behind the backs of the people who put you in a seat of power.

I hope you will take this testimony into account.

Sincerely,  
Judy Ficek
