Dear Joint Committee on Ways and Means Subcommittee on Transportation and Economic Development,

SB 256 Relating to Willamette Falls navigation infrastructure.

I am concerned about the effect of rebuilding the locks affects on Lamprey. The Willamette Falls is one of the last strong holds of Lamprey to be harvested by Native American Tribes. How are Lamprey going to be protected? Lamprey's are an important species to the Ecosystem.

Thank you for your consideration of this important issue to Native Americans.
