Subject: HB2927

It is time that Oregon join the National Popular Vote compact. Please pass HB2927 as is and not pass SB 825. We do not have to have outside money coming in telling us what we Oregonians need to do, as was the case with 97.

The electoral college was an idea that made sense when it was created. It is no longer needed. It is creating Presidential campaigns that revolve around a few battleground states. That is not how our future Presidents should be elected.

One Person One Vote.

Thank You
