

Please support HB 2927 for the National Popular Vote. It's about time that the progress of the 21st century caught up to the original intentions of the constitution. We need a true democracy and the way to obtain that is by a reflection of the true popular vote.

Please oppose SB 825.

- It would be very easy for a well-funded opposition group, likely from outside Oregon, to come in and confuse the issue. We don't want a repeat of measure 97 resulting in a non-Oregonian getting to influence how your vote counts.
- The legislature knows public interest democracy groups don't have the cash to run a ballot initiative. This is an attempt to kill this bill.

Thank you,  
Myron Lezak
