

I am a natural born American. I vote in every election. I am a delegate from my county to my state Party. I am very active in politics. We realize that this state is currently BLUE, or Democrat controlled. The current election method has worked well for democrats in this state, keeping it blue.

We do not want to enter the compact vote movement. Our Founding Fathers instituted the Electoral College for a purpose which serves our country well. We want to keep the Electoral College in place. Otherwise you hand the election to basically two states in America. That is simply not the way it should be. Oregon would no longer matter. Should we change our primary dates we could have a much greater effect on the results of a national election.

Please see the wisdom in keeping the Electoral College.

In Oregon, we can assemble sufficiently to change a large number of Democrat seats to Republican seats. We will be greatly motivated to do just that, should Democrats vote SB 825 through and Oregon become part of this compact. That's why there will be a roll call vote, and we will use it.

Thank you,
