

I strongly oppose these bills because the popular votes garnered in the large population areas (for example, New York and Southern California) will dictate the results for all the rest of the country. Even though our current Oregon Democrats have no objection at this time, keep in mind that they may not always. We deserve the right to have our votes and our voters represented fairly, and the best method found to date is via the electoral college.

I urge you to oppose these measures.

Thank you for your consideration.

Sincerely,

Penny French,
Admin. Asst.
