

I am writing to urge passage of HB 2927. I believe that each US citizen's vote needs to count, I oppose SB 825. I believe its the job of the legislators to make the change to popular vote, thereby representing their constituents. The issue should not be politicized, as SB 825 would do. The Oregon constitution already provides a way for the opponents to obtain a state-wide vote after it is passed by the legislature. This procedure needs to be followed. Please do not allow "one person, one vote" to be put off any longer.

Thank you,
