

To whom it may concern,

Passing this bill is undoubtedly unconstitutional. The founding fathers of our country gave us the blueprint to make sure every citizens vote counts, this bill is everything the founding fathers did NOT want. If this passes, the major metropolitan areas of Oregon will control EVERY Presidential Election going forward. If this were to pass nation wide, it would be a handful of states that decide the outcome of the election. It is my opinion that popular vote has been skewed in recent elections due to illegal immigrants casting votes, citizens casting multiple votes and dead citizens casting votes for one party in particular, the Democrats. This bill is bad for the rural counties of Oregon, since they are mostly conservative and go against the progressive agenda of the current Governor and the democrat party. I urge you all to vote NO on this bill, the electoral college system was set up so every citizens vote counts equally. To change this is to change our Constitutional Republic.

Thank You,

Patrick Akins
