Subject: I support HB2927 but not SB825

I am strongly in favor of HB2927.

Under the electoral college system, my vote for president is not worth as much as a vote from other states. This is neither fair nor just. Why should a few select states determine the leader of this country? Why don't Oregonians count as much as others?

I want Oregon to join National Popular Vote Interstate Compact so that my vote has equal value.

I also want the Oregon Legislature to take leadership on this issue and not refer it to a statewide vote.

Sincerely,

Dr. Amber J. Keyser
