

Dear Committee Members,

Please vote YES on HB 2927 as is and vote NO on SB 825.

I strongly support One Person, One Vote. Vote YES on HB 2927.

It's time that every American's voice and vote count in Presidential elections. National elections should not come down to a handful of battleground states. We need every voter in every jurisdiction to know that their vote counts. Under the present state winner-take-all apportionment of electoral votes, Democracy loses.

I strongly oppose referring the issue and ask that you vote NO on SB 825.

The US Constitution specifically assigns the task of choosing the method of awarding electoral college votes to the state legislatures. I respectfully ask that you do your job and decide the matter.

In the long history of the Electoral College this decision has never been made by anyone other than the state legislatures. Again, I respectfully ask that you do your job and decide the matter.

Thank you,  
Beatrice Michel, O.D.
