

It has come to my attention there is a vote to take place [on June 21, 2017](#). I urge you to vote what the people want and not the government. Democracy was built upon the voice of the people and right now we are screaming NO! From California to Connecticut and everything in between we urge you to vote NO on eliminating Electoral And YES to listening to the people who have elected people like you and others.

Thank you,

Thank you,

LeAnn Leffler-Foote
