

Dear Oregon Legislators,  
Please oppose, vote NO, on Senate Bill 825. The National Popular Vote should not be send to the voters for a decision. It is the responsibility of state legislators under the U.S. Constitutional to decide these matters. Oregon's winner-take-all vote was not decided by the voters...It is was decided by the legislature.

Referring this to voters is a costly measure. This is a non-partisan public interest democracy issue. The burden shouldn't be on the voters when the legislators have the authority and power, and historical precedent, to vote for the compact.

One person = One vote in every state. Vote for the National Popular Vote Compact (with no referral).
