Senate Rules Committee  
OR

Dear Committee,

I'm Jenny Jones. I'm a small business owner, Christian, conservative who's party has been highjacked by religious extremists funded by billionaires and an executive branch employed by billionaires. None of this has been good for business and none of it is good for me, as a woman.

One should note that the legal, outdated method of gerrymandering -- which is crushing the ability of the people to actually get representatives they want into government -- is the moving model that is what the Electoral College is: a way for the few to legally steal elections. The President is for everyone, not just some.

Please support HB 2927 for National Popular Vote. Without it, we will be literally creating our own enslaving, nobility of super-rich.

Sincerely,

Ms. Jenny Jones
